Ishidi lokuhlunga izindleko

Igama _____ **Ibhizinisi** _____ **Usuku** _____

Uzogcina unalokhu
Intengo ephansi kakhulu ongayibiza ngomkhiqizo noma umsebenzi wakho omkhulu, nalokho owenzayo ekuthengiseni ngakunye manje.

1. Izindleko ezingaguquki ngenyanga

Izindleko ezingaguquki (zihlala zifana njalo ngenyanga, ngisho noma ukuthengisa kuhamba kancane). Ezindlekweni ozikhokha kanye ngonyaka, hlukanisa ngo-12. Uma usuwenzile ishidi lesabelomali, kopisha isamba sezindleko ezingaguquki kulo bese weqa ithebula.

Izindleko ezingaguquki	Inani ngenyanga (R)
isb. Irenti	2 500
isb. Ilayisensi R1 200 ngonyaka ÷ 12	100
Isamba sezindleko ezingaguquki ngenyanga	

Lesi samba yimali encane kakhulu ibhizinisi okufanele liyenze njalo ngenyanga ukuze nje lihlale livulekile.

2. Izindleko eziguqukayo zokuthengisa okukodwa

Izindleko eziguqukayo (ziyakhuphuka zehle kuye ngokuthi uthengisa kangakanani). Khetha umkhiqizo noma umsebenzi wakho omkhulu bese ubhala ukuthi kubiza malini ukwenza noma ukuletha **okukodwa** kwakho.

Umkhiqizo noma umsebenzi wami omkhulu (isb. isitayela sezinwele esisodwa sokuluka, i-oda elilodwa lokudla labantu abangama-20)

Izindleko eziguqukayo zokuthengisa okukodwa	Inani (R)
isb. Izinwele zokwengeza nemikhiqizo	120
isb. Ezokuthutha ukuya kwikhasimende	30
Isamba sezindleko eziguqukayo zokuthengisa okukodwa	

Lo msebenzi uhlose ukufundisa kuphela. Akuyona iseluleko sentela, somthetho noma sezezimali. Imithetho nezidingo zingahluka ngohlobo lwebhizinisi nendawo. Buza isiphathimandla esifanele noma umeluleki oqeqeshiwe mayelana nesimo sakho.

ITHIPHU

Ungakhohlwa izindleko ezincane

Izinto zokupakisha, uphethiloli, idatha, amaholo abasizi nesitoko esimoshekile konke kufanele kubhalwe lapha.

3. Intengo ephansi kakhulu ekhokhela izindleko zakho

Kungakanani kwalokhu engikuthengisa ngenyanga ejwayelekile (isb. 40)

Isamba sezindleko ezingaguquki ngenyanga ÷ Inani elithengiswe ngenyanga = Ingxenye yezindleko ezingaguquki yokuthengisa okukodwa (isb. R4 000 ÷ 40 = R100)

Izindleko eziguqukayo zokuthengisa okukodwa + Ingxenye yezindleko ezingaguquki = Intengo ephansi kakhulu (isb. R150 + R100 = R250)

Intengo yami manje - Intengo ephansi kakhulu = Inzuzo ekuthengiseni okukodwa (isb. R300 - R250 = R50)

Okushiwo yimpendulo

1. Ingaphansi kuka-zero: ulahlekelwa yimali kukho konke ukuthengisa. Khuphula intengo noma unciphise izindleko.
2. Incane: inyanga eyodwa ethule ingaqeda yonke inzuzo yakho.

Isinyathelo esilandelayo

Engizokwenza (isb. khuphula intengo yokuluka isuke ku-R300 iye ku-R350, noma thenga izinwele zokwengeza ngobuningi) _____

Ngaphambi kwanini _____

Isikhathi sokukwenza kabusha

Lapho izindleko noma intengo yakho ishintsha, futhi okungenani njalo ezinyangeni eziyi-6. Amanani erenti, esitoko nekaphethiloli ayakhuphuka, ngakho intengo ebikhokhela izindleko zakho ngonyaka odlule ingase ingasazikhokheli manje.

Lo msebenzi uhlose ukufundisa kuphela. Akuyona iseluleko sentela, somthetho noma sezezimali. Imithetho nezidingo zingahluka ngohlobo lwebhizinisi nendawo. Buza isiphathimandla esifanele noma umeluleki oqeqeshiwe mayelana nesimo sakho.
